

SureSmile® Advanced Patient Selection Criteria

To get started with SureSmile Advanced and follow a proven path to proficiency, select your first patients following the criteria below:

At least half of your selected cases must be:

- Class I with mild/moderate crowding
- Mild Class II (end to end molar relation)
 - Requiring mild upper molar rotation to correct molar relationship; or
 - Requiring mild Class II correction
 - Mild vertical components (mild deep anterior overbite or mild anterior open bites) are acceptable in the above cases
 - Mild midline discrepancies requiring Class II correction and/or IPR are acceptable in the above cases

Less than half of your selected cases can be:

- Extraction case where the extraction spaces have been closed and the case meets the criteria above
- Case where Class II correction has been completed or is near completion and meets the criteria above

To prepare cases for faculty review and class discussion, please review each case prior to class.

Examples of suitable cases:

- Class I
- Mild Deep Bite
- Upper/Lower Crowding

- Class I
- Upper/Lower Crowding

- Class I
- Mild Open Bite
- Upper/Lower Crowding

- End to End Molar
- Upper Molar Rotation
- Deep Bite

- In Treatment
- Mild Class II Component
- Deep Bite
